

National Referral Mechanism Statistics Quarter 2 2018 – April to June

Date published: 15/08/2018

Reference: QTR02-18-MSHT

Version number: 1.1

Authoring department / team: Vulnerabilities Command / MSHTU

Key Points

- 1658 potential victims were submitted to the National Referral Mechanism during the period April to June 2018; a 2% increase from the previous quarter January to March 2018.
- Reporting showed potential victims of trafficking originating from 81 different countries this period.
- Nationals from Albania, the UK and Vietnam remain the most commonly reported, with the United Kingdom being the most referred for the third consecutive quarter.
- The most recorded exploitation type for potential victims exploited as an adult was labour exploitation.
- The most prominent exploitation type recorded for potential victims first exploited as a minor was labour exploitation, which includes criminal exploitation such as cannabis cultivation and County Lines drugs supply.
- One age-disputed case has been referred this quarter where the potential victim claimed their organs were to be harvested in Turkey. Whilst no harvesting occurred, the case is under investigation to inform the minor's conclusive grounds decision.
- Over 28% (478) of referrals received this quarter had no claimed exploitation within the United Kingdom, with a further 12% (196) where no location was identified.
- The Police Service of Northern Ireland received 15 referrals for crime recording purposes, with 55 referred to Police Scotland and 63 referred to Welsh forces. The remaining 1525 were referred to police forces in England.
- A supporting Microsoft Excel file, *Tables_for_NRM Q2_2018_INTERNET* containing all tables within the report is separately available to download and use for analytical purposes.

National Referral Mechanism Statistics – 2018 Quarter 2

This report presents a summary of the number of potential victims of modern slavery and human trafficking referred in to the National Referral Mechanism (NRM) during the period 1st April to 30th June 2018.

The figures used are from the NRM data with a cut-off date of 18/07/2018. Some of the cases remain open with the Competent Authorities and decisions on their trafficking status are yet to be made. The NRM is a 'living' process and data should be considered provisional until all cases are concluded. Some values may differ from previous or future reports as supplementary information is revealed throughout the duration of a case and their records are adjusted accordingly.

Percentages are rounded to the nearest whole percentage point.

Following its introduction last quarter, a supporting Microsoft Excel file, *Tables_for_NRM_Q2_2018_INTERNET*, is available in Excel 97-2003 format to enable users to more readily interact with the NRM data without the requirement for the latest software. Downloads are available from the NCA's website at:

www.nationalcrimeagency.gov.uk/publications/national-referral-mechanism-statistics

This report does not provide any analysis of the picture of modern slavery in the UK.

The report provides figures relating to the number of potential victims that have been referred in to the NRM process during the reporting period April to June 2018, with no decision data for the case.

(Intentionally blank)

Changes Introduced to NRM Data Management

Previous iterations of this report were produced on the basis of the police force and country location of the first responder, irrespective of the claimed location of exploitation or residence of the potential victim at the time of referral. This led to invalid hotspot analysis of the data being applied to police force areas and the devolved regions of the UK.

Following the July 2016 clarification and subsequent update in July 2017 within the Home Office Counting Rules¹ (HOCR) whereby:

“all referrals made by the police into the NRM and all those that the police receive from the NRM with a positive reasonable grounds decision applied must be subject of a recorded crime of MS (modern slavery)”

A subsequent NCA review established that the previous statistical attribution of referrals to a particular country within the UK on the basis of the location of the first responder was misleading.

In support of HOCR requirements, NRM referrals are now screened against the below criteria in order to identify the responsible geographical police force. Once identified, the referral is transmitted within one working day to the relevant Force Intelligence Bureau (FIB), or stipulated point of receipt within force for action. The reasonable grounds decision, once made, is subsequently notified to the force by the competent authority.

Criteria applied to identify relevant force

The force has acted as first responder, or the referral indicates that the force is already involved in the recording/investigation of the potential modern slavery human trafficking (MSHT) offences;

or

The potential victim has been exploited within the force area;

or

The potential victim has been exploited abroad, or at an unknown location and the victim's address at time of referral is within the force area;

or

The potential victim has been exploited abroad or at an unknown location and they have presented to another first responder within the force area.

The Annexes to this report and table overleaf have been compiled on the basis of where the police force that received the NRM referral for crime recording is located, e.g. Wales will be comprised only of NRM referrals originating from, or sent to Dyfed-Powys Police, Gwent Police, North Wales Police or South Wales Police.

The Annexes do not reflect where the initial force has subsequently transferred the crime recording responsibility to another force.

¹ Rule updated July 2017. https://www.gov.uk/government/uploads/attachment_data/file/627449/count-violence-july-2017.pdf#page84

NRM Statistics Quarter 2, April – June 2018

In this quarter, the UK National Referral Mechanism (NRM) received 1658 referrals of potential victims (PV); this represents a 2% increase on the previous quarter. The PVs were reported to be of 81 differing nationalities.

The 1658 referrals were comprised of 658 females (<40%), 999 males (60%) and one transgender case (<1%). Referrals for 955 (58%) for adult exploitation categories and 703 (42%) referred for exploitation as a minor were received.

Annex A - ENGLAND – 2018 Quarter 2

In Quarter 2 2018, the UK National Referral Mechanism (NRM) received 1525 referrals of potential victims (PV) where the referral was subsequently sent to a police force for crime recording considerations in England; this represents 92% of all UK referrals to the NRM.

The 1525 referrals were comprised of 601 females (39%), 923 males (>60%) and one transgender female (<1%). There were 873 (57%) individuals referred for adult exploitation categories and 652 (43%) referred for exploitation whilst a minor.

No Referrals - 2018 Quarter 2

City of London

South Wales

Annex F – Police Force Areas for Crime Recording Purposes

The following tables identify the first responder organisation and the police force to which the subsequent NRM submission was transmitted for crime recording purposes under the Home Office Counting Rules.

The Annex does not reflect where the initial force has subsequently transferred the crime recording responsibility to another force.

The data represents referrals from all agencies, not just police forces. The table has been compiled under the revised NRM data management processes, as detailed at page 4 above.

Police force sent NRM referral for Crime Recording	Total
Metropolitan Police Service	518
West Midlands Police	139
West Yorkshire Police	82
Thames Valley Police	64
Merseyside Police	58
Bedfordshire Police	57
Police Scotland	55
