## National Referral Mechanism Statistics – April to June 2013

This report has been primarily provided to inform the National Referral Mechanism Oversight Board of the UK's delivery against a number of definitive requirements contained in the Council of Europe Convention on Action against Trafficking in Human Beings. Reports are produced for each quarter; the previous report (SOCA EXT-6527) included statistics from January to March 2013 and was published in July 2013.

It is important to note that the number of referrals outlined in this report is not a measure of human trafficking in the UK; rather it indicates the number of individuals who have been referred as potential victims of human trafficking.

### Data base

The information in this report is obtained from referrals made to the National Referral Mechanism (NRM) for the three month period from April to June 2013. The data used is correct as at 01/10/2013. It should be noted that the data used is a 'snapshot in time' and there are decisions on trafficking status yet to be made.

**The data cut-off date for this report is 01/10/2013.**

### Detail

1. On 01/04/2009 the UK adopted a National Referral Mechanism (NRM), which is a process to identify individuals who may be potential victims of trafficking (PVoT) and provide them with the protection and support to which they are entitled under the Council of Europe Convention on Action against Trafficking in Human Beings.

2. The process starts when a designated 'first responder'<sup>2</sup> refers a potential victim of trafficking to one of two separate, but linked, UK Competent Authorities: the Home Office UK Visas and Immigration Department and the National Crime Agency UK Human Trafficking Centre. The process has two stages, 'Reasonable

<sup>2</sup> The NRM Oversight Board has a prescribed list of organisations that may act as first responder and can refer individuals to the NRM. This list currently contains police officers, NCA, Home Office, Social Services and a number of non-government organisations (NGOs).

Grounds'<sup>3</sup> and 'Conclusive Decision'<sup>4</sup>, during which trained staff assess all available information in reaching a decision as to whether or not the individual is a victim of human trafficking.

3. This report contains data derived wholly from information supplied by the NRM. The data only reflects potential victims of trafficking referred into the NRM and cannot be taken as a definitive situation report on human trafficking into, within or out of the UK. Potential victims of trafficking may not be referred to the NRM for a number of reasons and therefore would not feature within this report.

4. Details for referrals from first responders for the UK are contained in the tables after each summary of adult and minor referrals in the main text. Details for referrals from first responders in England are contained in Annex D; these 325 referrals represent 85% of the total UK referrals. Northern Ireland is contained in Annex E; the 10 referrals represent 3% of the total UK referrals. Details for referrals from first responders in Scotland are contained in Annex F; the 32 referrals represent 8% of the total UK referrals. Details for referrals from first responders in Wales are contained in Annex G; the 16 referrals represent 4% of the total UK referrals.

<sup>3</sup> The Competent Authorities have a target date of five working days from receipt of referral in which to make a decision. The test that is applied is whether the statement 'I suspect but cannot prove...' would be true and whether a reasonable person would be of the opinion that, having regard to the information available, there were reasonable grounds to believe the individual concerned had been trafficked.

<sup>4</sup> The Competent Authorities have a target date of 45 calendar days from the Reasonable Grounds decision to make a Conclusive Decision on the individual's victim status having gathered further information. The test that is applied is whether on the balance of probabilities 'It is more likely than not...' that the individual was trafficked based on the information available.
