

Statistical Tables for UK Missing Persons Data Report, 2019/2020

Time series data of missing related reports in England and Wales

- [Table A1:](#) Number of missing related calls recorded by UK police forces, 2015-2020
[Table A2:](#) Number of missing incidents recorded by UK police forces, 2015-2020
[Table A3:](#) Number of missing individuals recorded by UK police forces, 2015-2020

High level missing figures for 2019/20

- [Table B1:](#) Number of missing-related calls recorded by UK police forces in 2019/20
[Table B2:](#) Number of missing incidents and individuals recorded by UK police forces in 2019/20

Demographic breakdown for 2019/20

- [Table C1:](#) Gender distribution of missing incidents by UK police forces, 2019/20
[Table C2:](#) Age distribution of missing incidents by UK police forces, 2019/20
[Table C3:](#) Ethnicity distribution of missing incidents by police forces, 2019/20
[Table C4:](#) Age and gender distribution of missing incidents in the UK, 2019/20
[Table C5:](#) Ethnicity and gender distribution of missing incidents, 2019/20

Assessment of missing incidents 2019/20

- [Table D1:](#) Distribution of incidents by risk level and UK police forces, 2019/20
[Table D2:](#) Distribution of incidents by age, gender and risk levels, 2019/20
[Table D3:](#) Distribution of incidents by vulnerability, gender and police force, 2019/20
[Table D4:](#) Distribution of the number of incidents by age, gender and vulnerability, 2019/20
[Table D5:](#) Distribution of incidents with mental health by age, gender and police force, 2019/20

Resolution of missing incidents for 2019/20

- [Table E1:](#) Missing incidents resulting in harm
[Table E2:](#) Nature of harm suffered whilst missing
[Table E3:](#) Number of fatal outcomes
[Table E4:](#) Duration of missing incidents
[Table E5:](#) Who finds missing people (incidents)
[Table E6:](#) Reasons for missing incidents - As percentage of all incidents
[Table E7:](#) Reasons for missing incidents by age group
[Table E8:](#) Reasons for missing incidents by age and theme
[Table E9:](#) Distribution of long term missing individuals by police forces, 2019/20

Incidents involving those in care

- [Table F1:](#) Missing from care

Unidentified cases

- [Table G1:](#) Unidentified cases notified to UK Missing Persons Unit, 2019/20
[Table G2:](#) Outstanding Unidentified Cases

Systems in operation

- [Table H1:](#) Command and Control and Missing Persons Systems used by UK police forces in 2019/20

Definitions

Child = anyone under the age of 18 (at the time they went missing)

Adult = anyone aged 18 and over (at the time they went missing)

Missing = "Anyone whose whereabouts cannot be established and where the circumstances are out of character or the context suggests the person may be subject of crime or at risk of harm to themselves or another"

Absent = "A person not at a place where they are expected or required to be and there is no apparent risk"

Calls = Telephone calls to the police relating to a missing or absent person, recorded on a command and control system. Multiple calls may relate to a single incident, or a call may relate to multiple different incidents/individuals.

Incidents = A single episode of someone being reported as missing or absent, which is recorded on a missing persons system. Multiple incidents can be attributable to a single individual, and some incidents may involve more than one individual.

Table A1: Number of missing related calls recorded by UK police forces, 2015-2020

1. Reported incidents recorded with an unknown age (i.e Child or Adult) have been excluded in 2016/17, 2017/18, 2018/19 and 2019/20: they were 955, 1030, 1171 and 921 repectively. 2. Total number of incidents adjusted or estimated for either 2017/18 or 2018/19 or 2019/20. 3. The incident data from Bedfordshire Police for 2016/17 is drawn from a different system, making the 2016/17 data incomparable with the 2015/16 data. 4. Dorset Police was unable to provide data for 2015/16 due to a change in ICT system part way through the year. 5. The adult incident data from Lincolnshire Police only includes data for Q2-Q4 (July 2016-March 2017) due to a change in recording practices. The data is therefore not directly comparable with the data for 2015/16. 6. PSNI refer to missing persons reports and Scotland refers to missing persons investigations. . = Not applicable. x = Not available.

1. Durham unable to provide total number of individuals and breakdown by Child and Adult. 2. The individual data from Bedfordshire Police for 2016/17 is drawn from a different system, making the 2016/17 data incomparable with the 2015/16 data. 3. Cleveland and Dorset Police were unable to provide this data in 2015/16; South Yorkshire unable to do so as indicated. 4. The adult individual data from Lincolnshire Police only includes data for Q2-Q4 (July 2016-March 2017) due to a change in recording practices. 5. The children data for North Wales was retrospectively revised downwards in 2018/19. . x = Not applicable. x = Not available.

1. Estimates used for Durham, North Wales and Scotland. 2. Police Service for Northern Ireland refer to their records as missing person reports. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales. 3. Police Scotland data relates to the number of missing person investigations recorded on their bespoke system. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales. . x

1. Force unable to provide age breakdown so total number of incidents reported, added as Unknown.

2. Police Service for Northern Ireland refer to their records as missing person reports. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales.
PSNI also use different ethnic groups to E&W with available data being grouped into best category. Other/Unknown includes Irish Traveller, Other Eth Group, Mixed, Roma, Gypsy and Unknown.

3. For Police Scotland 'Ethnicity' breakdowns were unavailable. Total number of missing investigations reported have been added to Other/unknown.

. = Not applicable.
x = Not available.

1. Percentages based on all risk incidents including No apparent risk. 2. Percentages based on all risk incidents excluding No apparent risk. 3. Force only able to provided partial data or none. 4. Police Service for Northern Ireland refer to their records as missing person reports. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales. 5. Police Scotland data relates to the number of missing person investigations recorded on their bespoke system. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales. . = Not applicable. x = Not available.

1. PSNI referred to 975 missing persons reports with a CSE flag for 74 children. Gender breakdown were unavailable. There were 13.2 missing persons report per child flagged at risk of CSE which was greater than for any other group. Mental health numbers refer to individuals and not missing persons reports. There would most likely have been multiple reports per person. 2. Adjusted or estimated based on demographics data . = Not applicable. x = Not available.

1. The data is taken from closure reports added to missing incidents. It therefore excludes any incidents not resolved by 31 March 2020, and is dependent on the information disclosed when the person returns. As a result, it may also underrepresent the harm suffered whilst individuals are missing as they may not disclose this to officers immediately on their return. 2. The total number of times harm outcomes were endorsed on closure reports for missing incidents. It may be possible to endorse more than one harm outcome, and therefore does not equate to the total number of incidents where the person suffered some form of harm. 3. Forces unable to provide this data. 4. This is the proportion of closure reports where this harm was endorsed as a percentage of all occasions when a harm outcome of any kind was endorsed, i.e we have excluded harm unspecified from the base. 5. PSNI and Scotland were unable to provide this data. . x																												

E3: Number of fatal outcomes

Table E4: Duration of missing incidents ¹
1. This data reflects the time lapsed from when the person was reported missing to the police to when the person was found. It does not include unresolved incidents. 2. Force was unable to provide this information. Scotland only able to provided data in timeframes shown and without Age breakdown. 3. Police Service for Northern Ireland refer to their records as missing person reports. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales. Data only available for 9,793 of the 11,326 missing incident reports. . = Not applicable. x = Not available.

1. The data in this section comes from the closure reports completed by officers when a person is found, and has mostly been supplied by Forces using the COMPACT missing person system (listed in 2 below). 2. The data in this section has been supplied by the following forces: Bedfordshire, Cambridgeshire; City of London; Derbyshire; Devon and Cornwall; Dyfed & Powys; Essex; Gloucestershire; Hertfordshire; Humberside; Kent; Leicestershire; Lincolnshire; Merseyside; Norfolk; Northamptonshire; Nottinghamshire; Staffordshire; Suffolk; Warwick and West Mercia; West Midlands. 3. The base used for percentages is Total All = 147,372, i.e all reasons totals including those that were "Not known/unspecified" and excluding Unknown Age Group totals. 4. The base used for percentages is Total - Not known/unspecified = 67,980. 5. The base used for all specified reasons = 79,392. 6. Unknown age group excluded from analysis.

1. The data in this section comes from the closure reports completed by officers when a person is found, and has mostly been supplied by Forces using the COMPACT missing person system (listed in 2 below). 2. The data in this section has been supplied by the following forces: Bedfordshire; Cambridgeshire; City of London; Derbyshire; Devon and Cornwall; Dyfed & Powys; Essex; Gloucestershire; Hertfordshire; Humberside; Kent; Leicestershire; Lincolnshire; Merseyside; Norfolk; Northamptonshire; Nottinghamshire; Staffordshire; Suffolk; Warwick and West Mercia; West Midlands. 3. The base used for percentages is Total All = 147,801, i.e all reasons totals including those that were "Not known/unspecified" and including Unknown Age Group totals. 4. The base used for percentages is Total - Not known/unspecified = 67,986. 5. The base used for all specified reasons = 79,895. 6. The base used for including Unknown age group percentage.

1. For the purposes of this report, ‘missing from care’ refers to reports where an officer has endorsed the child/adult as being ‘in care’, or where the address the person is missing from is known to be a residential care unit (including psychiatric care). This may therefore include individuals in a range of care situations, including those living in children’s homes, in foster care, those living with parents/guardians in family homes, in health placements and in care homes or nursing homes. 2. Data used in analysis: the ratio figures for England and Wales have been calculated excluding figures where both incidents and individual data has not been provided. 3. Force only able to provide partial data. 4. Police Service for Northern Ireland refer to their records as missing person reports. These are deemed to be similar but may not be directly comparable to the incidents created on the police recording systems in England and Wales. Not in care numbers for incidents and individuals estimated. 5. Police Scotland data relates to the number of missing person investigations recorded. For Adults, in care figures reported are those reported missing from Adult Care Home, for children, in care figures include . = Not applicable. x = Not available.

1. Cases which had not been identified as of 31 March 2019.
2. Cases found in England, Northern Ireland, Scotland and Wales, including those notified and dealt with by British Transport Police.
3. This only includes cases notified to the UK Missing Persons Unit where there is believed to be a UK connection (e.g. due to clothing or money found), and have therefore been entered on to the UK MPU database.

1. Cases found in England, Northern Ireland, Scotland and Wales, including those notified and dealt with by British Transport Police.
2. This only includes cases notified to the UK Missing Persons Unit where there is believed to be a UK connection (e.g. due to clothing or money found), and have therefore been entered on to the UK MPU database.
3. 2017/18 figures for Non UK Territories/Counties were revised last year due to under-reporting of Interpol cases. Subsequent review of Interpol cases has led to a change in procedure in their management and hence a substantial reduction.
